

Y11 IT Weekly Revision Plan - Till the exam in February

You should be spending 45 minutes – 1 hour a week on IT revision (which is less than 10 minutes per night) throughout Year 11. The earlier that you can start your revision programme, the better! You should also be aiming to do something whilst you are revising i.e. making flash cards, writing exam responses, annotating extracts so that you are revising with a clear focus!

Wk beginning	What topic?	Do this...	Practise this...
12/10/20	Cloud Computing & Working with others	<p>Read through pages 5 & 6 in the revision guide 2 to 3 times or you could use the Know it all Ninja website (link on the Google Classroom) to review the topic.</p> <p>Then create your own flashcards to aid your revision. Making sure someone in your household asks you the questions you write everyday.</p>	Practise the exam questions you have been given around this topic in both the sample material and PG Online content.
19/10/20	Suitability of platforms and services & Features of cloud service	<p>Read through pages 7 to 8 in the revision guide 2 to 3 times or you could use the Know it all Ninja website (link on the Google Classroom) to review the topic.</p> <p>Then create your own flashcards to aid your revision. Making sure someone in your household asks you the questions you write everyday.</p>	Practise the exam questions you have been given around this topic in both the sample material and PG Online content.
26/10/20	Modern teams & Collaboration and Communication tools	<p>Read through pages 12 to 13 in the revision guide 2 to 3 times or you could use the Know it all Ninja website (link on the Google Classroom) to review the topic.</p> <p>Then create your own flashcards to aid your</p>	Practise the exam questions you have been given around this topic in both the sample material and PG Online content.
