Letters checked for staff/ Y7 iPad Programme

Monday 14th September 2020

Dear Parent/Guardian,

Re: Year 7 Apple Ipad Programme

We would like to invite you to join an information session to find out about iPads for Learning - an exciting new project that will create inspiring learning experiences and maximise your child's learning and progress.

The sessions will take place on Tuesday 29th September, Wednesday 30th September and Thursday 1st October, 6pm to 6.30pm. At the sessions, you will:

- learn how iPads will be used as part of our Windsor Academy Trust curriculum to maximise teaching, learning, achievement and personal development
- understand the success and impact of iPads for learning
- gain practical information about finance, insurance, e-safety and the supply of iPads.

You only need to attend one online information session and can book your place at windsoracademytrust.org.uk/ipads - **Bookings close at 12 noon on Friday 25th September.**

These sessions are an invaluable source of information on this critical project which will significantly enhance your child's future learning experience and we hope that you can attend.

About iPads for Learning

iPads for Learning will provide individual iPads for all Year 7 students. Part of our commitment to providing a world class education, the project will ensure that your child has access to the most impactful way to learn and progress both in school and at home, and develop the essential digital skills they need for their future.

The use of iPads is fully integrated into our Windsor Academy Trust Year 7 curriculum with your child being able to use their iPad in lessons and at home as part of their learning. Your child's personal iPad will form part of the essential equipment to maximise their engagement, learning and progress.

Further information on the project can be found at windsoracademytrust.org.uk/ipads, as well as in the attached 'iPads for Learning project overview'.

What we are asking of you

The success of this project is dependent on a partnership between the school and parents. We are not able to provide iPads to students from our school budget. We are therefore looking for a contribution from parents to fund the purchase of iPads.

Details about the finances involved in this project will be outlined at the information sessions. Following this if you have any further questions or would like to talk this through with the school directly, the school will make time to discuss this with you.

Thank you in advance for your support.

Yours sincerely

Dawn Haywood

Deputy CEO and Education Director, Windsor Academy Trust
